# INNOVATIVE SOLUTIONS

---

Founded in 1997, Vista Dental has been a pioneer in the dental industry for over 20 years. Trusted by dental clinicians around the world, our products are renowned for a unique combination of quality craftsmanship and exceptional value.

Vista first gained acclaim for its advanced endodontic irrigation solutions that deliver results far superior than standard sodium hypochlorite and EDTA. Over the years, the company has expanded its portfolio to include etchants, hemostatic agents, curing lights, whitening, specialized delivery tips, and tissue management products, just to name a few.

With a legacy of advanced product performance and clinician-first features, we continue to set the benchmark for game-changing chemistry and technology that shatter the status quo. In 2020, we are excited to announce the additions of the following breakthrough products:

- **Desensify** – an instant desensitizer with antimicrobial properties and MMP inhibitors
- **OmniEtch** – etchant that prepares ceramics, dentin, and enamel in one simple step
- **Purify+** – an aqueous cleanser that disinfects the tooth prior to bonding and increases bond strengths up to 33%
- **VistaCORE** – core build-up material and luting cement with dual-cure chemistry
- **V-Force Solo** – a powerful universal adhesive that combines etchant, primer, and bonding resin into a single bottle

We take great pride in our multi-discipline approach to product development, which employs a diverse team of engineers, scientists, and clinicians. While our product development competency has rendered dozens of patents, we are just as passionate towards our commitment to quality, our customers, and our employees.

Vista products are sold through a global network of distribution partners. Many of our products offer significant advantages and margin improvement opportunities to both end users and dealers alike.

If you have never purchased a Vista product before, we welcome you to experience our quality and value. We are confident you will become a fan of Vista, just as we are a fan of better dentistry.

## *Innovation for Better Dentistry*

# BONDING & ETCHING

Vista now offers a complete line of products for adhesive dentistry, including the first bioactive bond. Vista bonding agents deliver incredibly high shear bond strength, and easy to follow protocols. Offering a complete line of intraoral and extraoral etchants and primers provides proper preparation for all applications.

# BONDING & ETCHING

**NEW**

## Regennex-Bioactive Universal Bond

This single bottle universal adhesive incorporates Bioactive materials directly into the adhesive layer, depositing biologically charged ions where it counts!

- Add Bioactivity to any of your trusted composites
- Targeted Bioactivity – Ionic release at the resin-dentin interface
- Osteogenic – Stimulates regeneration of hydroxyapatite
- Antimicrobial – Alkaline pH aids in the prevention of secondary caries
- Biocompatible – BPA-Free, patient friendly non-toxic compatibility

	SKU	PRICE
Universal Bond Kit (1) 4 mL bottle, (50) applicator brushes, (1) mixing well, (2) 1.2 mL syringes of Etchant/Cleanser, (8) Spira-Flo™ brush tips	90637-2	<b>\$140.00</b>
Refill Kit (1) 4mL bottle	90638-2	<b>\$110.00</b>
Etchant/Cleanser (5) 1.2 mL syringes, (25) Spira-Flo™ brush tips	90719-2	<b>\$45.00</b>

**NEW**

## V-Force Solo

V-Force Solo performs well as a true single bottle adhesive, as part of a selective etch system or as part of a total etch system.

- Produces a bond strength of 35 MPa (when used alone in self etch mode)
- No rinsing required
- No post-operative sensitivity
- Single bottle application allows for little to no technique sensitivity
- Not thickness dependent

SKU	PRICE	Switch from Bisco** Products All-Bond Universal®	SAVE
Solo Kit SDL17-2	<b>\$115.00</b>	B-7202P \$145.00	<b>21%</b>

**Includes:** (1) 4mL bottle; 1 tube of 50 applicator sticks; 1 single cavity well

**NEW**

## V-Force Twin

V-Force Twin combines the three most important features for successful bonding: consistency, versatility, and strength.

- Easy to follow technique eliminates sensitivity
- Provides exceptional bond strengths, and superior long-term performance.
- Etching results identical to 37% phosphoric acid etch

SKU	PRICE	Switch from Bisco** Products All-Bond 2®	SAVE
Twin Kit 90400-2 <b>Includes:</b> (1) 6mL bottle #1, (1) 6mL bottle #2, (100) brush tips, (2) brush handles, (1) mixing well	<b>\$120.00</b>	B-2510A \$167.00	<b>28%</b>
Twin 1 Refill 90404-2 <b>Step 1 includes:</b> (1) 6mL Bottle #1	<b>\$50.00</b>	B-2511A \$89.00	<b>44%</b>
Twin 2 Refill 90405-2 <b>Step 2 includes:</b> (1) 6mL Bottle #2	<b>\$50.00</b>	B-2512A \$89.00	<b>44%</b>

# BONDING & ETCHING

## CERAMIC SOLUTIONS

**NEW**

### Vista Zirconia Primer

Designed to provide high quality, lasting adhesion between luting cement and Zirconia, Metal, or Alumina restorations.

- Unrivaled bond strengths (40MPa)
- Powerful enough for use in partial coverage restorations.
- Compatible with self, light, and dual-cure resin luting cements.

	SKU	PRICE
Bottle Kit	90577-2	<b>\$79.95</b>
Syringe	90578-2	<b>\$45.95</b>

**NEW**

### OmniEtch

OmniEtch is a 2-component system that is activated immediately prior to use to ensure peak performance at the time of delivery. This ensures your solutions are always fresh at the time of use.

- Prepares lithium disilicate and porcelain without the use of hydrofluoric acid leading to safer application
- Easy to apply. Obvious indicators of when the solution is ready for use and when it is no longer active

	SKU	PRICE
	90030-2	<b>\$95.00</b>

**Kit includes:** (2) 3mL bottles of material, applicators, and a mixing well

### Porcelain Etch

Viscous 9.5% Hydrofluoric Acid Solution. For porcelain veneers and inlays prior to cementation or repairs.

- Viscous solution
- Rinses clean away
- Silane solution used after etchant enhances the bonding of resin material

	SKU	PRICE	Switch from Ultradent** Products		SAVE
Standard Kit (2) 1.2mL prefilled etch syringes, (2) 1.2mL prefilled silane syringes, (25) Spira-Flo™ brush tips	502500	<b>\$38.20</b>	405	\$61.49	<b>38%</b>
Refill Kit (2) 1.2mL prefilled syringes, (25) Spira-Flo™ brush tips	502512	<b>\$17.45</b>	406	\$23.49	<b>26%</b>
Refill Kit (4) 1.2mL prefilled syringes, (25) Spira-Flo™ brush tips	502510	<b>\$38.80</b>	406	\$44.98	<b>14%</b>
Silane Refill (4) 1.2mL prefilled syringes	502505	<b>\$17.45</b>	410	\$36.98	<b>53%</b>

**NEW**

### VistaCORE

VistaCORE is an innovative core build-up material with dual-cure chemistry to ensure material is completely cured.

- Carves like dentin with a similar cutting resistance to tooth structure
- Extremely radiopaque

	SKU	PRICE
5mL A2	90494-2	<b>\$70.00</b>
5mL Wh. Opaque	90495-2	<b>\$70.00</b>
25mL A2	90492-2	<b>\$115.00</b>
25mL Wh. Opaque	90093-2	<b>\$115.00</b>
25mL Kit A2	90047-2	<b>\$165.00</b>
25mL Kit Wh. Opaque	90048-2	<b>\$165.00</b>
Extrusion Gun	90046-2	<b>\$70.00</b>

## NEW

## Purify+

Purify+ used in conjunction with a single bottle adhesive systems can improve bond strengths by up to 33%.

- Cleansing dentin and enamel surfaces
- Removing imaging powder from all surfaces

	SKU	PRICE
Syringe Gel	90058-2	<b>\$10.00</b>
Syringe Liquid	90056-2	<b>\$10.00</b>
5 pk Gel	90417-2	<b>\$45.00</b>
5 pk Liquid	90057-2	<b>\$45.00</b>

**Kit includes:** 1 syringe and 5 tips; **5 syringe kit includes:** 5 syringes and 25 tips

## DESENSITIZER

## NEW

## Desensify

- Eliminates sensitivity INSTANTLY
- Disinfects with antimicrobial agents including chlorhexidine
- Provides fluoride at the restorative-tooth interface
- Inhibits MMPs, giving you better bond longevity

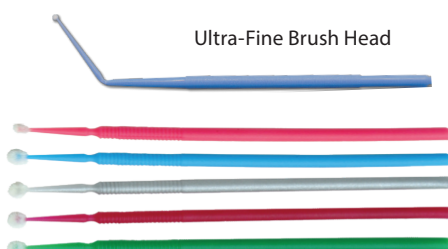

SKU	PRICE	Switch from Kulzer Gluma** Products other leading brands	SAVE
90413-2	<b>\$95.00 (\$9.50/mL)</b>	up to \$12.10 / mL	<b>21%</b>

**Kit includes:** (1) 10mL bottle, (1) single-cavity well, (25) applicators

## Micro Applicator Brushes

- Lint-free brush tip, Non-absorbent, and bendable

# COMPOSITE ENHANCERS

Composite enhancers are designed to improve the handling and performance of any preferred composite material. Resulting in more efficient, long-lasting restorations.

*“Therma-Flo™ composite warmer has been a lifesaver, everything I do now fits better, and the margins are better, because of the composite warmer. It’s a game changer.” - **Dr. Steven Paryka DDS***

# COMPOSITE ENHANCERS

## Therma-Flo™ Composite Warming Kit

Increase the flowability of highly filled composites without compromising tensile strength, wear-resistance or aesthetics

	UNIT	SKU	PRICE
Complete Kit	110V	404350	<b>\$625.20</b>
Complete Kit	220V	404355	<b>\$625.20</b>
Includes: Composite Warmer, (2) Composite Syringes, (40) Step Down Tips			
Basic Kit	110V	404310	<b>\$419.00</b>
Basic Kit	220V	404320	<b>\$419.00</b>
Includes: (1) Composite Warmer			

## Step Down Tips

Extended length: deeper access and precise placement.

A completely new delivery option enabling doctors to use much less composite with little manipulation required to place the material.

- 4X orifice reduction for more precise placement of composite material
- Narrow profile for optimal visualization
- Easy extrusion of composite material

4X

	QTY	SKU	PRICE
4X	40 / cup	320817	<b>\$32.60</b>

## Composite Syringe

- AUTOCLAVABLE
- Compatible with all manufacturer's composite composes

SKU	PRICE
4044	<b>\$80.60</b>

# COMPOSITE ENHANCERS

## NEW Seamless

Seamless is a wetting resin that has been designed to make the handling of composite material easier and more consistent by eliminating the tackiness that makes manipulation difficult.

- Eliminates tackiness of composite materials
- Does NOT add layers or thickness to composite
- Absorbs into composite after use, does NOT need to be dried or light activated
- Does NOT change physical properties of composite material

	SKU	PRICE
(1) Syringe Kit	90025-2	<b>\$19.00</b>
(5) Syringe Kit	90026-2	<b>\$90.00</b>
Bulk 3mL Bottle	90027-2	<b>\$48.00</b>

## VALIANT® Multispectral Curing Light

VALIANT® Multispectral Curing Light – THE POWER TO CONFIDENTLY CURE IS HERE

- Multispectral, uniform beam through 395-500 nm wavelength range
- Versatile to polymerize nearly all light-cured dental materials
- Quick-change battery pack that's easily detached and re-attached
- 4 LED's operate through three curing modes plus transilluminator 'white light'
- Intuitive, easy operation with one-button soft touch on/off switch
- Lightweight and ergonomic style

	SKU	PRICE	Switch from Ultradent** Products Valo® Cordless Curing Light	SAVE
Complete Valiant® Kit <b>Kit Includes:</b> (1) Cordless Handpiece, (1) Battery Pack, (1) Charging Base (100) Protective Sleeves, (1) Instructions for Use, (1) Curing Light Shield	600100	<b>\$995.00</b>	5941 \$1,649.99	<b>40%</b>

# ENDODONTICS

As the leader in endodontic irrigation, Vista provides innovative solutions to thoroughly cleanse even the most difficult anatomy. Vista's line of enhanced irrigants and delivery systems, paired with ultrasonic activation, offer a simple, effective irrigation protocol.

*"Vista Dental's irrigation products offer you the ability to simplify the irrigation process and, therefore, more predictably achieve endodontic success." - **Dr. Freddy Belliard***

# ENDODONTICS

## Gold Standard

### Chlor-XTRA™ - Enhanced 6% NaOCl (Patented)

- Added surfactants lower surface tension, improving depth of penetration.
- 2X FASTER tissue dissolution than standard NaOCl
- Surfactants increase lubricity during instrumentation

	SKU	PRICE	Switch from Ultradent®* Products ChlorCid®*
16oz. (480mL) bottle	503800	<b>\$68.85</b>	4612

## EndoUltra® (Patented)

EndoUltra® - Ultrasonic Activator

- Promotes penetration of irrigants into dental tubules and canal complexities.
- Disrupts biofilm and removes vapor lock.
- Greatly reduces bacteria levels and improves root sealing.
- Easily incorporated into an existing endo irrigation protocol.

# PIEZO ULTRASONICS

Vista Dental's ultrasonic tips are designed to fit all major Piezo scaling units. Vista offers the largest selection of tips on the market for applications ranging from hygiene, perio, restorative, and endodontics.

# PIEZO Ultrasonics

## General Scaling Tips - Our most popular light to heavy-duty tips

- 
**SU1 - Light to medium-heavy supra-gingival** *(comes with tip wear marking)*
  - Ideal for light to medium-heavy cases of supra-gingival calculus. Produces a smoothly scaled surface with minimal need for secondary hand instrumentation. Use the side radius of the initial 2-3mm of the tip in a sweeping motion on the tooth enamel.
- 
**SU2 - Heavy supra-gingival calculus removal**
  - *Flat edge for removing high density deposits:* Use to shear off calculus, use an up-and-down motion with the flat edge of the top of tip and the side of tip perpendicular to tooth surface.
- 
**SU3 - Tobacco, coffee and other stain removal**
  - *Rounded edge for stain removal:* Use to shear off stubborn stains, use an up-and-down motion with the rounded edge of the top of the tip and the side of tip on the surface of the tooth.
- 
**SU5 - Interproximal scaling**
  - *Thin tip design:* The thin design of this tip permits easier entry into most interproximal spaces.
- 
**SU6 - Sub-gingival scaling** *(comes with tip wear marking)*
  - Long, thin tip design for less invasive entry into sub-gingival pockets. Produces reduced patient sensitivity.

## General Scaling Tips

Price per tip: **\$65.00**

# PIEZO Ultrasonics

Periodontal Tips - "H" series (hygiene) and "PT" series (perio thin)

### HC - Universal curette design (comes with tip wear marking)

■ Designed for deep pocket access. Ideal for sub- and supra-gingival scaling. Powerful enough for medium to heavy calculus removal. Use edge of tip to guide motion for smooth results.

### PTU - Sub-gingival pocket scaling (comes with tip wear marking)

■ Thin tip for sub-gingival scaling; simulates natural curvature of a tooth to provide easy access into pockets with minimal patient discomfort. This universal tip is extremely thin to minimize patient sensitivity and create a smoothly scaled surface.

### PTL / PTR - Sub-gingival scaling (PTL - Left Bend / PTR - Right Bend)

■ Used for lower-left and upper-right molars and pre-molars. Also effective for scaling interproximal spaces between molars.

### HFL / HFR - Light scaling of difficult areas

#### (Diamond-coated) HFL - Left Bend / HFR - Right Bend

■ Use on furcations and interproximal sides of molars and pre-molars. Proper use requires non-foot pedal actuated placement, followed by activating foot pedal, scaling, releasing foot pedal and removal of tip. Use at low power settings.

## Perio Scaling Tips

# TISSUE MANAGEMENT & IMPRESSIONS

Quality tissue management is crucial for accurate impressions. When impressions are made with fluid present in the sulcus, the quality of the impression suffers and usually needs to be remade, which can be costly. Vista offers a complete line of products developed to predictably achieve rapid hemostasis.

# TISSUE MANAGEMENT & IMPRESSIONS

## Quick-Stat™ FREE

25% Aluminum Chloride Clear Hemostatic Gel

- NON STAINING, ideal for use in esthetic region
- Lower surface tension for improved penetration
- Viscous gel will not flow onto surrounding tissue
